or call us at **+032 (0)16 38 28 18.**

Depending on the provider, we can arrange a test within 1 hour, or within a few days. The tests are computer driven and are specifically assembled out of a pool of questions.

Courses tailored to fit your specific needs

Sometimes it's necessary to follow a complete training path in order to acquire certain skills and competences. That's why we create courses tailored to specific needs.

You decide upon the course content, its location and the number of participants, resulting in both a very effective knowledge transfer and **cost-reduction**.

Call us and we will present you many references with leading banks, governmental organizations, telecom operators and industrial companies.

In order to receive a quote, do not hesitate to call us concerning tailored courses, hands-on, "blended learning" and assessment tools.
